Company profile

Riverest is a company that began in 2019 and is based in Spain with places production in Asia. It is dedicated and specialized in exploring and offering a great variety of rocks and ornamental wood. It guarantees a stable and constant maritime supply chain.

Riverest adapts to the requirements and demands of its customers, keeping in mind every detail while preparing and sending the materials. It works closely with its clients, providing global solutions for mutual benefit. It offers the best quality and logistic services while adjusting to each country's requirements.

Carrier of natural beauty

Riverest is constantly searching around the world and improving the materials that it offers to the decoration market. It is not creating beauty but rather bringing nature's beauty to its customers.

Bussines Partner

If you are searching for the right product, quality, packing, and labeling, Riverest would be your best option. Riverest understands what you need, and can make the best suggestions to offer you the exact service you are looking for (quality control, order tracking, reduced delivery time, the optimum logistics, etc.) It offers the option of a full-service solution, guaranteeing that your order arrives in good condition and in the least possible time.

Aquascaping Tools

Adhesive Liquid 50g
RA-0150-1

Special cyanoacrylate based liquid adhesive for dry joining rocks and wood.

This adhesive allows you to perform landscaping jobs safely and quickly. It is totally safe in the water and has a long durability.

For its union between components it is recommended to use our fusion compound that we have in different colors.
